

Fuelling Change: Trailer

Intro Instrumental Music Plays by Dave Price

Hello and welcome to *Fuelling Change*, a podcast series produced by Fuel and presented by me, Kate McGrath. *Fuelling Change* is a series of five podcasts examining the effect of the producer on the UK's performance sector, co-commissioned by Clore Leadership and the Arts and Humanities Research Council.

I have been working as a producer in the arts, and particularly in live performance, for more than 20 years, most of which I've spent producing through Fuel, an Independent producing company I co-founded in 2004 and lead today.

In these five episodes, I'm reflecting on the development of my practice over those 20 years as a producer through conversations with artists and producers I've worked with during that time and on the evolution of the role in the context of the changing social, political and economic environment during that period.
